The BBQ36G is gas-fired. A 30 lb. tank will do approximately 12 hours of cooking with 2 burners on high.

Meadow Creek Welding uses only food-grade T304 stainless steel in the fabrication of parts identified as "stainless steel" that will contact food under normal use. This includes, but is not limited to grates, racks, shelving, work surfaces, and complete units constructed primarily of stainless steel and sold using that description.
