Use approximately 30-35 lbs. of charcoal per pit to cook 40 lbs. of chicken for first rack. If you wish to cook a second rack, add approximately 10-15 lbs. of charcoal.

Meadow Creek Welding uses only food-grade T304 stainless steel in the fabrication of parts identified as "stainless steel" that will contact food under normal use. This includes, but is not limited to grates, racks, shelving, work surfaces, and complete units constructed primarily of stainless steel and sold using that description.
