Use approximately 110 lbs. of charcoal to cook a 300 lb. pig (live weight), 240 lbs. (dressed), at a temperature of 300 degrees. Cook approximately 15 hours or until shoulder meat reaches 180 degrees.

Shown with optional doors in lid.

Meadow Creek Welding uses only food-grade T304 stainless steel in the fabrication of parts identified as "stainless steel" that will contact food under normal use. This includes, but is not limited to grates, racks, shelving, work surfaces, and complete units constructed primarily of stainless steel and sold using that description.
