## Option

- Vinyl Cover
- 13-Gauge 12" High Hinged Lid

Use approximately 10–20 lbs. of charcoal depending on cuts of meat and batches needed.

Meadow Creek Welding uses only food-grade T304 stainless steel in the fabrication of parts identified as "stainless steel" that will contact food under normal use. This includes, but is not limited to grates, racks, shelving, work surfaces, and complete units constructed primarily of stainless steel and sold using that description.
